THE STAR is connected with the wires of the National Telephone Exchange and with the Westerr Union Telephone Exchange. Both these agencies can therefore be availed of in sending to THE STAR advertisements, orders for the paper to be served, news, or any information, at any hour of the day free of charge. These facilities are a great convenience, and will be appreciated by the customers of THE STAR.

An Eight Page Paper.

THE STAR will be again issued on Saturday in its double sheet or eight page form of fifty-six olumns, thus giving its readers thirty-sever columns of news and reading matter and nine columns of fresh advertisements, which from their bright, crisp character, have always been a semi-news feature of the paper. There have been 1,161 advertisements thus far in November. Advertisers and news-dealers will confer a favor by sending in their orders as

The Greenbackers Loth to Die.
The opinion so unanimously expressed by republicans and democrats that the recent elections killed the national-greenback-labor party does not seem to be shared in by the leaders of the latter. They have issued a call for a meeting of their followers on the sht of next January, and these leaders still assume to believe that the hope of the nation is wrapped up in their party. They assemble their hand of nation. party. They assemble their band of nation-savers because of the "gravity of public affairs savers because of the "gravity of public affairs and the imminent perit to representative government." No common political motive such as prompts other parties, moves these pat-riots. They are not seeking for office or spoils of any kind. Oh, not Pure, exalted patriotism, such as neither of the old parties ever possessed, actuates the leaders of the national-greenback-labor party. These astute leaders make their invitation general enough to include cory man invitation general enough to include every man in the country who feels any sympathy for their principles. They appreciate the value of num-bers at a political convention or assemblaze. e through the greenback party, and it is The continued existence of the means a continuation of public life to hem if the party can maintain strength enough to elect anybody. The death of the party mean retirement to these leaders. They realize this, and therefore will exert themselves to the ut-termost to keep the party alive, but the votes cast this fall indicate that they are undertaking

The Charleston News and Courier complains that the politicians of both parties are injuring the business of the South. It says that the death to the Union" telegram of Toombs and the recent utterances of Senator Carpenter have alarmed the business men of Europe with regard to the condition of the south, and they are afraid to send money to southern ports for the purchase of cotton. The News and Currier says

journal, says the democrats must go west for a presidential candidate, and that Senator David Davis, of Hilnols, is the man who "can bea

the Army of the Cumberland for its promenade concert and ball. Those who have the courage turn out to-night will be reminded, we fear, of that 4th of March of unpleasant mem rear, of that 4th of March of unpleasant memory, when the famous ball was given in honor of Grant's second inauguration, and which was by common consent considered the most uncomfortable day ever experienced in Washington. If we were not blessed with such a lovely climate as we are, days like these would not be so noticeable, as they are not read to be a contraction. so noticeable,—as they are not in many places; but being the marked exception to the general rule here, they stand out with conspicuous dis

sed at the evidence that "the Grant boom s preased at the evidence that "the Grant boom sy growing in the South." It reminds the southern democrats that they are not treated with proper respect by their northern allies; that they are expected to furnish the majorities and do all the voting, but are never allowed to advance any policy or take part in party management; that southern interest all the northern democrats vote against it. The Globe Democrat, in a spirit of authority, assures the southern people that all this shall be changed if they will join the Grant boom, that they shall have as much to say and enjoy as much patronage as anybody cise, if they will support Gen. Grant.

Kearney is about to be deposed as king of the San Francisco hoodlums. His followers have found him out, and he no longer rules the Sandlot meetings. Kalloch has been plotting against Kearney ever since the election. Having been Kearney ever store the election. Having been elected mayor, Kalloch concluded to cut loose from the worst element of the hooflums and rally around him a respectable set of men. He succeeded in arraying Kearney's most trusted and intuential lieutenants against their leader and now the San Francisco papers announce that the new mayor and his friends have determined to assume control and send Kearney to the rear. It is also stated that Kalloch has made overtures to the democratis for a union of forces. overtures to the democrats for a union of forceovertures to the democrats for a union of forces in the election of next year. Whether this be true or not, it is evident that Kearney's sway is about at an end. He may be able to retain a small following for awhile, but all the initiaences that kept him at the head of a large number of men are at an end. California is enjoying a revival of business as well as other sections of the country, and hundreds of men who a year ago attended Kearney's meetings because they were didle, are now employed and have therefore, no idle, are now employed and bave, therefore, no further interest in the sand-lot agitator.

The city of Wilmington, Del., has set an ex-mple that might be followed with beneficent results by many of the large cities. For years past the elections in Wilmington have been notoriously corrupt, repeating was carried on boldly by both parties, and for a long time the persons engaged in these frauds were protected by political influences. Soon after the last election the Every E-ming called attention to a number of frauds and deman-ded that the parties be punished. This demand was supported by the best citizens, and the Attorney-General devoted himself impartially to the prosecutions. Yesterday a democratic repeater was convicted, and the court is proceeding with the work. Democrats and republicans are being treated alike, and "political influence" is compelled to Stand back and let justice do its work. It is ilts by many of the large cities. For year-Stand back and let justice do its work. It is well known that in many of our large cities ss of men thrive by committing frauds u the ballot-box. Instead of being punished they are too often courted by those who seek and get before. The example set by Wilmington ought to become popular.
